PROGRAM

Interior architecture and design services for a 5-story, 215 unit residential apartment building.

DESCRIPTION

The Upton Short Hills will be an upscale multifamily residence catering to an affluent clientele. It will offer impeccable elegance and inspired amenities. The interiors embrace a monolithic look with wood-coffered ceilings and luxurious finishes. Amenity spaces are woven together through the use of wood screens. Well appointed outdoor amenities offer a sophisticated and classic atmosphere through the incorporation of the three elements - Earth, Water and Fire. A spacious dining room with chef expose table will offer exclusivity for special events. A conference room, fitness center, exercise studio, coffee bar, computer/business center, golf simulator, club room, dog wash, and kids play room round out this unique residential project. The residences preserve and reflect the classic natural beauty and sophistication of the historic Short Hills community.
